

Quarterly Sales Report

This PDF was generated from scratch by dsh-exp-office (no template, no third-party library).

It uses the standard 14 fonts, so nothing has to be embedded.

Marker: PDF-FROM-SCRATCH-MARKER

Escaping check: (parentheses) and a backslash \ are written literally.

Page two starts here, forced by a form-feed marker in the input.

Text extraction works because a /ToUnicode CMap is written as well.
